

HOSPITALS **it** MAKE HAPPEN

Every day, hospitals care for patients and families in times of sickness or crisis. Many times, this care comes in the face of challenges or adversity unknown to the patient.

Healthcare is increasingly at the forefront of discussions in the General Assembly, making it critical to tell state lawmakers the stories of the challenges hospitals face and the many great accomplishments despite these circumstances.

To do this, your support is needed for *Friends of THA*, the Association's political action committee (PAC). The PAC supports legislators who are sensitive to hospital issues and priorities. *Friends of THA* is central to the Association's advocacy efforts.

In November, Tennessee elected a new governor, 99 House members and half of the Senate. Support for candidates who support hospitals is important to THA's future success. This is why your participation in the PAC is so critical.
